Parent Education & Family Stabilization:

A Positive Divorce Resolution

complies with requirements for parent education according to Section 61.21

Florida Statutes and the Florida Department of Children & Families

*Parents who take PDR early have a
definite advantage*

Parent's Comments

- I remember when my children were first born wishing for an instruction book to go with them. This course is the closest thing that I have ever encountered.
- Thank you for your obviously sincere commitment in getting us through this chapter of our lives as positively as possible.
- 4 hours is a long time!! The instructors made it zoom by!! This was 4 hours time well spent.
- I initially intended to browse through it as fast as possible and take the test. As I began to absorb the material, however, I found myself reading and then re-reading it over and over. It is not an exaggeration to say that this presentation is life changing.
- I learned about my own childhood issues and how I relived what my folks did to me and realize what I need to do differently.
- Fantastic presentation. Definitely not what I expected. This class will be a real help to me and my kids.
